Where International, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest ranked of these boundaries.

1 A " " following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2 In 1990, the crew-of-vessels population of ships at sea was allocated to census tracts with a 50% split. As another shipyard on the 1990 maps locates a crew-of-vessel tract, these maps show a very small area symbolized as a census tract in the census tract number shown next to the area.

3 A " " following a block number indicates that the block number is repeated elsewhere in the block.
